PROFESSIONAL SUMMARY

Frontend Developer with 2 years of experience in Angular, skilled in building dynamic and responsive web applications. Experienced in UI development, REST API integration, bug fixing, and reusable component development. Strong problem-solving skills with hands-on experience working on real-time client projects. Looking for an opportunity to grow and contribute as a Frontend Developer.

EDUCATION

Bachelor of Computer Applications (BCA)
Mysore University

HSC – Maharashtra State Board

SSC – Maharashtra State Board

SKILLS

Frontend: Angular, React, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, Tailwind CSS

Backend & Database: Node.js, SQL, PostgreSQL, MySQL

Soft Skills: Problem Solving, Teamwork, Fast Learner, Adaptability

WORK EXPERIENCE

FRONTEND DEVELOPER (ANGULAR.JS)

Angular Developer Intern | The Baap Company

VENDOR MANAGEMENT SYSTEM (VMS)

- Developed and maintained the User Management, Invoice Management, and Delegation modules for the Vendor Management System (VMS).
- Built responsive, user-friendly interfaces using Angular, HTML, CSS, Bootstrap, and TypeScript.
- Integrated RESTful APIs to facilitate seamless communication between frontend and backend systems.
- Collaborated with team members to deliver new features, enhancements, and bug fixes.

LIMA (AUDIT TOOL)

- Developed Responsive Angular UI & Stepper Workflows: Built modern, responsive Angular interfaces and multi-step audit workflows across multiple modules, ensuring a smooth and user-friendly experience.
- API Integration & Dynamic Data Management: Integrated RESTful APIs and implemented dynamic forms and data handling to manage complex audit processes efficiently across the application.
- UI Enhancement, Bug Fixing & Testing: Resolved functional and UI issues, improved application usability and performance, and performed testing to ensure stable and reliable application functionality.

HOTEL MANAGEMENT

- Developed modules for a digital hotel management system using Angular.
- Built responsive UI components and integrated REST APIs.
- Created reusable widgets to improve overall user interaction and dashboard performance.

PRODUCTIVITY TRACKER

- Developed UI screens to fetch and display comprehensive employee productivity analytics.
- Integrated tracking parameters, including punch-in/out logs, system screenshots, and chat activity metrics.
